

## Director's Report April 2026

**Good vibes:** During internet outage, several folks said they were happy we have internet here and hot spots to borrow so they could work!

A teen gave Sue good compliments that she was glad to have an in-person crochet coaching since online wasn't teaching her very well.

Our library is so helpful in my life! – patron who needed bus ticket purchasing help.

- Sent in the NH State annual report.
- Kevin, Donna, Kate, and Al signed up for the NHLTA conference on May 27th in Manchester.
- I went to Minneapolis for the Public Library Association conference. It was so encouraging to see so many librarians working toward the same goals of serving their communities! I came away with some fun ideas to work on for us and some big ideas that I will attempt to scale down to our smaller size library. Thank you for the opportunity to go to my first national conference.
- Insulation project is done! It was quite a lot of disruption and I'm glad we chose to close for those 2 days so they could work unimpeded. I will begin the reimbursement process from Eversource now.
- Building maintenance has been high again. Also, it looks higher at this point in the year since we had to cut the budget after we had to expend some funds for repairs.
