

Welcome to

beanstack

What is Beanstack?

A new platform for HPL's reading programs. Beanstack keeps your stats and lets you know when you've earned prizes. When the next library program comes around, no need to re-register—just click on it, and you're in.

Can I add more than one reader to my account?

Yes! You can set up as many profiles as you like, including family accounts, for readers of any age.

How do I log my reading or activities?

Beanstack will let you know what an individual challenge requires in the Activities section, but generally for Kids & Teens you just enter the number of minutes read and for Adults the names of the books you read.

How do I get the prizes I earn on Beanstack?

Every time you hit a reading milestone, you'll win a badge. Sometimes those milestones will come with real, actual prizes —Beanstack will let you know, so you can come in and claim your reward.

Do I need an email address to sign up?

You do not need an email address to sign up, you can just use a username.

Sounds great! How do I sign up?

Just go to hampsteadlib.beanstack.org or ask a librarian for help!

If you have any questions, just ask!
Stop by, give us a call, or email
circulation@hampsteadlibrary.org.
